REHAN RAZA

+91-7520251064 | 099rehan@email.com | GitHub | LinkedIn | Portfolio

CAREER OBJECTIVE

Full-stack AI developer (B.Tech CSE – Data Science, 2027) building RAG and LLM-powered applications with LangChain, OpenAI API, FAISS, FastAPI/Django, and Next.js. Shipped production REST APIs (35% latency reduction) across 2 internships and built end-to-end AI platforms with automated testing. Seeking the Full-Stack AI Developer Intern (RAG) role to ship production-grade AI features.

EDUCATION

Galgotias University — B.Tech in Computer Science (Data Science) 2023 – 2027
Greater Noida

Bihar School Examination Board — Class 12th 2023
Patna

Bihar School Examination Board — Class 10th 2021
Patna

TECHNICAL SKILLS

AI / RAG: RAG architecture, LangChain, OpenAI API, embeddings, FAISS vector index, document chunking, prompt engineering, PyTorch
Backend: Python, FastAPI, Django, Flask, REST API design, token-based auth & RBAC, SQL, SQLite
Frontend: React, Next.js, JavaScript, HTML, CSS — responsive & accessible UI
Databases & Analytics: MySQL, PostgreSQL, SQLite, Firebase; SQL analysis, Excel dashboards & reporting, data cleaning
Testing & Quality: PyTest (unit, integration, end-to-end), model validation (precision/recall, F1), debugging & log analysis
Programming: Python, Java, JavaScript, C, SQL; DSA (1000+ problems; LeetCode Contest Rating 1420)
Tools & Cloud: Git, GitHub, GitHub Copilot, Cursor AI, Jupyter; AWS Technical Essentials (certified)

PROJECTS

KisanSetu (Android App) — Java, Firebase, Android Studio
Farmer Support Platform
- Built Android marketplace connecting farmers to buyers with real-time crop price feeds, product listings, and in-app messaging.
- Integrated Firebase Auth, Realtime DB, and Cloud Storage; designed accessible high-contrast UI for low-literacy rural users.

SatQuery AI-Satellite Imagery Intelligence Platform (SIH26) |Next.js, FastAPI, PyTorch, PyTest
- Built a full-stack AI platform (Next.js frontend, FastAPI REST backend, SQLite) with natural-language visual Q&A (SmolVLM + LoRA), change detection, and Optical+SAR fusion; English and Hindi output.
- Ensured reliability with 294 automated PyTest tests (unit, integration, end-to-end); Siamese U-Net reached 73.5% F1 on LEVIR-CD.

Stock Bazaar Pro — Machine Learning, Python, Flask
Stock Market Analysis & Prediction
- Built stock price forecasting model using LSTM and Random Forest regression, evaluated with RMSE on held-out test data.
- Applied EDA (correlation heatmaps, rolling averages), feature engineering, and model tuning; deployed via Flask API for real-time prediction.

INTERNSHIP EXPERIENCE

Data Analytics Intern — VisioTechon Services | Oct 2026 – Present
- Built Excel dashboards and recurring reports from raw datasets, turning data into clear, actionable business insights.
- Cleaned and validated data and wrote SQL queries for analysis and reporting.

Software Development Engineer Intern — Blue Stock Fintech Jul 2025 – Sep 2025
- Built and deployed REST API endpoints for IPO data retrieval using Django, reducing data fetch latency by 35%.
- Redesigned frontend using HTML/CSS/JS, improving user engagement metrics by 30% (measured via session duration).

AI & ML Intern — EduSkills (AICTE – Google for Developers) Oct 2025 – Dec 2025
- Preprocessed 10K+ row datasets using Pandas/NumPy; built classification models (Random Forest, Logistic Regression) achieving 87% accuracy.
- Applied feature engineering (encoding, scaling, selection) and evaluated models using cross-validation, precision, recall, and F1-score.

CERTIFICATIONS

- Google Cloud Gen AI Academy APAC 2026
- AWS Technical Essentials
- AWS ML Engineer Associate Curriculum
- Oracle Academy — Database Design
- Deloitte — Data Analytics Simulation

ACHIEVEMENTS

- Solved 1000+ DSA problems across LeetCode, GeeksforGeeks, and CodeChef.
- Completed 25+ industry certifications across Machine Learning, Data Analytics, and Database Design.
